

## **Committee of the Whole Notes - November 5, 2019**

### **Child Care Services Program**

Committee received a draft report that examined potential options for the city's child care services program. The committee recommended that council consider a motion at its November 26 meeting to establish a task force of parents and city staff to look at options that address equity of access and expanding child care services in Beaumont, and how child care could be operated on a full cost recovery basis.
