

ADAPTED AQUATICS

\$96.00

The Red Cross Swim Adapted Aquatics program is for swimmers with special needs. While this program uses the progressions in the Red Cross Swim Preschool and Red Cross Swim Kids Programs, the performance criteria for each level have been broken down into smaller, more manageable progressions to create a positive learning environment and make the success of each swimmer more achievable. The progressions have been created to progress swimmers with special needs slowly and at their own rate.

In order to help meet the needs of our adapted aquatics candidates we have changed our inquiry and registration process.

Please contact the BSRC Aquatics Team to learn more about the program and the registration process.
