

City of Beaumont Lot Grading FAQ

Updated: April 2024

General

How do I get my grade accepted?

For information on the rough and final grade acceptance requirements and steps, refer to the [Residential Lot Grading Guidelines](#) document.

How do I get my landscaping deposit back?

Landscaping deposits are held by the **builder or the developer**. Please contact your builder or developer for more information; City of Beaumont does not hold this deposit.

When does lot grading season start?

The lot grading inspection season typically runs from **June 1 to October 15**. These dates are weather and condition dependent. Any application received after October 1 may not get inspected before the season closes.

Builder Information

When will the lot be inspected?

Rough grade inspections will not occur until final occupancy has been granted by the Building Inspections Department, no exceptions.

How do I request an inspection?

All inspections require an inspection application and must include a rough grade certificate. Please email all requests to lotgrading@beaumont.ab.ca. If the property requires re-inspection, please attach the proof of payments/receipt along with the application and a revised rough grade certificate (if requested by the City staff).

How long does it take to have the rough grade accepted?

Rough grade inspections are typically completed within **15** business days. Inspection timelines are weather and volume dependent and can vary from season to season. All times are given as estimates only.

How do I get my damage deposit refunded?

Once both the rough grade inspection and the final damage inspection have been accepted, the refund will be processed automatically. Ensure your **current address** is on file in order to receive your refund as quickly as possible. All cheques are issued to the name of the applicant on the building permit, and cheques are sent in the mail.

How do I know if the lot has passed inspection?

Once your lot has been inspected, an inspection report will be forwarded to the email address you provided. Please provide the most current information on your inspection request in order to receive your reports in a timely fashion.

I damaged the sidewalk on the lot; what do I do now?

Final damage inspection will occur at the time of rough grade inspection. If damages exist on the curb or sidewalk that were not previously recorded at the initial damage inspection, the damages will be added to the following years' repair list and deducted from the deposit on file. Any remaining funds will be refunded. In addition to sidewalk and curb, the final damage inspection includes CC valve and third pipe.

Homeowner Information

I spread my topsoil; what do I do next?

Once your final grade is in place, you must send a request to an Alberta Land Surveyor to prepare a lot-plan of as-built elevations, known as a final grade certificate.

How do I request an inspection?

All final grade inspections require payment of an inspection fee and submission of a final grade certificate along with the Lot Grading Inspection Application.

What are the fees for final grade inspection?

Inspection fees are subject to change from year to year. Refer to [2024 Fees & Charges Bylaw 1051-24](#) document for the current inspection fee chart.

Where do I pay for the inspection?

The fee is payable at the main reception in the City Office at 5600-49 St. Debit, Credit or cheque are accepted. Alternatively, you may call 780-929-8782 **ext.0** to make payment using a credit card.

Why do I have to pay the inspection fee?

The final grade inspection is a service provided by the City of Beaumont to residents which includes the inspection, and all necessary acceptance documentation.

How do I submit my final grade certificate?

Final grade certificates can be forwarded to lotgrading@beaumont.ab.ca along with the Lot Grading Inspection Application.

My builder is taking a long time to get my grading done, what do I do?

The builder is responsible to achieve rough grade acceptance within 18 months from the date final occupancy was granted.

What happens if I proceed with landscaping and my rough grade isn't accepted?

You can be subject to penalty under the Surface Drainage Bylaw 732-08.

I'm not sure if my rough grade is accepted; who do I check with?

To obtain the status of your rough grade please contact your builder.

How long does it take to have the final grade accepted?

Final grade inspections are typically done within **10** business days (weather dependent) from application submission date.

Can I have my acceptance letter/certificate emailed or can I pick it up?

Due to the volume of acceptance documents, we process, all letters are emailed or mailed to the registered homeowner.

How do I know if my lot has passed inspection?

A door tag will be left at your front door informing you of whether the grade was accepted or denied. If accepted, your acceptance letter will be mailed. If denied, please refer to the door tag for additional information.

Do I have to put down topsoil everywhere to have my final grade accepted or can I put down other materials?

Any type of material that will form your final grade needs to be in place at the time of the inspection. If rocks or wood chips are part of your landscaping plan, the clay base must be raised to final grade to promote surface drainage. Water will flow over the base surface, which is considered the final grade, not over the rocks or wood chips.

My neighbor's dirt keeps washing onto my property, what do I do?

When problems arise, we encourage residents to speak to their neighbors and try to be understanding in areas of new construction. Topsoil is usually not washed onto adjacent properties intentionally and installing temporary barricade can help correct the issue until the yard has been accepted and the sod has been put down.

What are the architectural guidelines in my neighborhood?

Architectural guidelines are set by the developer. For more information contact the developer in your neighborhood.

What is my landscaping responsibility on the boulevard?

The developer is responsible for finishing the boulevard but can sometimes take up to two years to complete.

Can I plant a tree on my boulevard?

No, boulevards are landscaped according to requirements that have been predetermined.
